

Jacks Plastic Welding
Collapsible Bucket Bag

14" diameter x 16" tall

Material: poly vinyl chloride (PVC)

You are going to love it!

This unique foldable bucket is handy on the river for hauling or settling water, as a wash bucket, or as a day bag for holding all those items you need to access quickly. It serves as a perfect bag for hauling food and beverages to and from your raft to the camp kitchen, and doubles as an excellent helper when collecting firewood. Off the river you'll find yourself using your Jack's Plastic Welding bucket bag in ways you continue to discover!

Many thanks go to Jack's Plastic Welding for their support of the **Experience a River with your Camera** 2015 Wild & Scenic Rivers Photo / Video Contest!
